Principal Lila McKeown

December 6, 2017

Re: Required Water Testing

In January 2017, Governor Rauner signed into law a requirement that all schools serving PreK-5 students test drinking water for the presence of lead. This testing was to be completed by December 31, 2017. All water fountains and faucets used for cooking are to be tested. If any sample comes back with more than 5 parts per billion/5 micrograms per liter, then specific notification and mitigation requirements are implemented. I am happy to report that ALL samples collected tested at less than 1 part per billion/microgram per liter. Therefore, no further steps are required.

Sincerely,

Dr. Ryan Olson

Superintendent

La Harpe CSD 347

TOGETHER WE MAKE A DIFFERENCE
